International Standard ISO/IEC 7810

Eyede personalise cards using a DataCard MX6000 high speed printer.

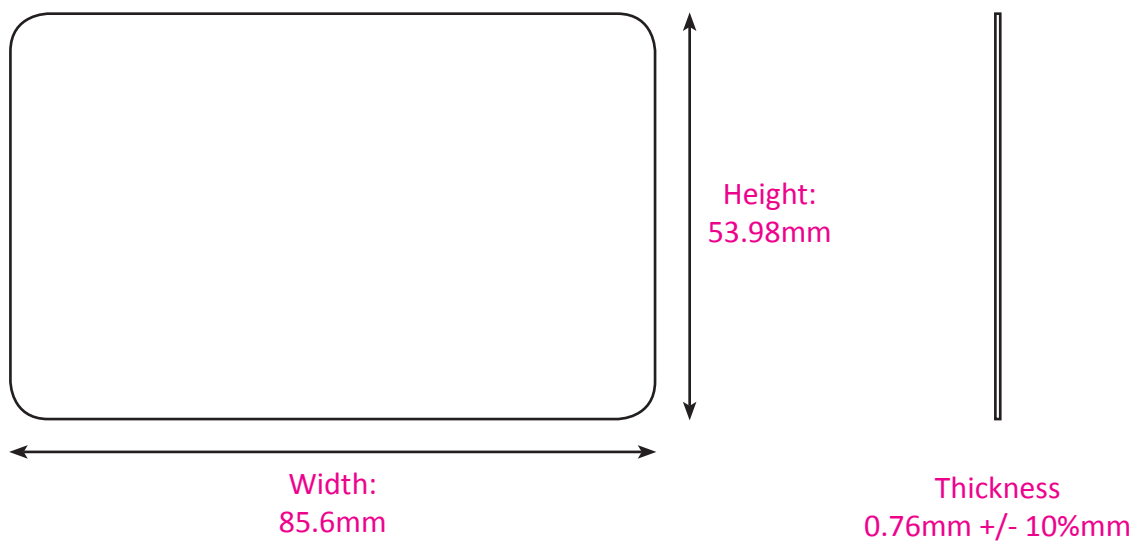

This printer supports the following card type:

SO/IEC 7810 ID-1 Size; 30 mil (+/- 10%);

30mil being a US measurement, equivalent to 0.762mm.

Anything outside of these specifications is not supported, and if run could cause any number of issues to any module within the printer, for example:

- Increased wear & tear on components such as rollers, track guides, belts etc.
- Card jams
- Ribbon breaks
- Print quality issues
